

APACHE 125 - CELEBRATING WORLD MISSION WORK

The Apache Reservation was the first place the WELS Lutherans decided - it's time we become missionaries and share this precious Word of God. In 1893, they sent George Adascheck and John Plocher to Peridot, AZ. 125 years later, 25% of our missionaries here are Apache, membership numbers over 3600 in 9 congregations and it's time now for the APACHE to become missionaries to our other reservations!

These three areas of the reservation are the ones most in need of funds to continue growing and going. They are the Apache 125 Funding Focus areas for this Anniversary Celebration. More information on our website: NativeChristians.org
